

Manluk BIO

Manluk specializes in full turnkey manufacturing solutions providing world class quality, delivery and efficiency. While utilizing cutting edge technologies such as robotic integrated manufacturing processes it maintains the old world craftsmanship and dedication to exceeding customer satisfaction. These values support industries such as on and off shore drilling, wellhead, downhole tools and mining. The capabilities include forging, heat treating, machining, cladding, wear resistant overlays, corrosion resistant overlays, nickel plating, nitriding, moly coating, HVOF, Xylan and fabrication. The pillar that supports this process is the quality control department that has 3 coordinate measuring machines (CMM), NDE qualified staff and equipment, hardness testing etc. With global span Manluk ships product to over 20 countries throughout North and South America, Europe, Asia, Australia, Middle East, and into Africa.

Manluk has approximately 250 employees, 165 000 square feet manufacturing space and has been providing turnkey manufacturing for over 40 years.

Capability Highlights

- 40 CNC machines (15 Machining centers 25 turning centers)
 - Up to 43.5" Swing, 10' long machine bed
 - Bar feeder
 - Live tooling
 - 50" x 50" Pallet machine center with 8800 lbs capacity
- 7 Surface and 1 cylindrical grinders
- 3 diamond lapping machines, 3 standard lapping machines
- 2 – JP8000 HVOF spray systems
- 8 Cladding machines
- 15 PTA machines
- QPQ Nitriding System
- Electroless Nickel Plating
- Molycoating
- Xylan coating
- Phosphate coating
- Full forging and heat treating line
 - 1600 Tonne Forge press
 - 70 lb max
 - Open and closed die
 - Ability to design, manufacture and repair our own dies
- Full CWB certified fabrication capabilities
- Platerolling
- Use of automation throughout the facility. 8 robots used in welding, spraying and machine tending
- Full Millwright services
- Massive rebuild bay

Manluk Industries (2008) Inc.
